

### **Additional Grounds**

This is to bring to your kind notice that I have been transferred to Bareilly from Rae Bareilly in the annual chain of 2021. After joining on 14/05/2021 on return I was infected with Covid-19 and developed symptoms. While repeated RTPCR reports were negative I was put under treatment at Lucknow due to my worsening condition and HRCT report and was advised hospitalisation. During this period my sister and mother were also infected. As there was no caregiver left I was forced to continue medication at home in Lucknow under supervision. My condition subsequently deteriorated and I had low oxygen level. I was on oxygen support for about 15 days. Medication was also stepped up to stronger steroids administered through IV at home isolation.

During these testing times my mother developed severe infection and was hospitalised. Despite our best efforts, we lost her on the 26th of May.

While my treatment was underway, though I had tested Negative on 16/05/21, even then I was again reinfected on 29/05/21. Despite the fact that during this period my covid medication was still undergoing, I again developed symptoms and am still under treatment and care of Chandan Hospital Lucknow and undertaking rest and recuperation.

This unusually long period of medication and home isolation due to COVID-19 has forced me to be very cautious in my medical and emotional needs. I have become extremely weak and am not fit to stay alone at Bareilly without any care giver.

I am single and have also lost my Mother, who was residing with me, during this period. In the present Covid scenario I will be unable to keep any domestic help too due to fear of infection in my fragile condition. My sister's family is staying at Lucknow, who is taking care of me all along. My medical treatment is still under way at Lucknow and with my posting at Bareilly travelling to and fro from Lucknow will be extremely hazardous for me as chances of Covid-19 infection or its mutant form will be inevitable during my journey.

This is to bring to your kind notice that I have been transferred to Bareilly from Rae Bareilly in the annual chain of 2021. After joining on 14/05/2021 on return I was infected with Covid-19 and developed symptoms. My medical treatment is still under way at Lucknow and with my posting at Bareilly travelling to and fro from Lucknow will be extremely hazardous for me as chances of Covid-19 infection or its mutant form will be inevitable during my journey .

I also humbly submit that as after effects of heavy medications ,steroids and extreme isolation my immune system requires a long period of controlled work environment for me to remain safe I may be posted at Lucknow on Deputation. My posting at Lucknow will enable my sister to take care of all my needs be it physical, medical or emotional.

In view of the foregoing circumstances I request the Hon'ble High Court to take a compassionate view to accommodate me at Deputation Posting in Lucknow on the post of Special Secretary/Additional LR Lucknow, so that my medical and emotional needs are met at this time of Global Pandemic COVID-19 and as such I will be able to discharge my duties both as a Family person and as an officer of Uttar Pradesh Judiciary.

I have moved representation on

I have moved representation on same facts on 15-06-2021.

With profound regards.
