From,

Ajay Kumar Srivastava UP2694 Addl. District & Sessions Judge Barabanki.

To,

The Respected Registrar General, Hon'ble High court Judicature, At Allahabad.

Through,

The Respected District Judge, Barabanki.

Subject: Representation against the Remark Awarded by the Hon'ble Administrative Judge, Barabanki in the ACR 2020-21.

Respected Sir,

I most respectfully and humbly submit that the Respected District judge, Barabanki was pleased to award me "Good" entry after considering my self assessment for the assessment year 2020-21. I humbly submit that the Hon'ble Administrative Judge, Barabanki has been pleased to reduce the entry to "average" for the same year. I submit myself completely before the authority and Majesty of the Hon'ble High Court; however I am constrained to humbly and most respectfully represent against reduction of the entry on the following grounds:

- 1. That the applicant is in the first year of his service in the Higher Judicial Service (Direct Recruitment).
- 2. That the applicant was on continuous training from the joining date of 19.03.2020 to 16.09.2020.
- 3. That the applicant was assigned the Court No 9 of Additional District Judge which was a vacant court and which had only 27 pending files.

- 4. That most of assessment year was a Covid affected year during which the normal working of the courts were suspended and only urgent work was conducted. That the normal work resumed only after 02.01.2021.
- 5. That during the assessment year I have suffered from <u>life threatening heart</u> <u>disease (Cardiac-arrest)</u> for which I have been admitted to the hospital multiple times. I have been on medical leave from 03.02.21 to 24.02.21 and Earned leave from 03.03.21 to 19.03.21 days in total during the assessment year for treatment and convalescence. The discharge summaries are attached as annexures for the kind perusal of the Hon'ble Court.
- 6. That due to the above reasons, I did not get the opportunity to do uninterrupted Dias work and there was constant breakage of routine.
- 7. That despite these obstacles the applicant achieved 65.40 % of work. It is also humbly and profusely prayed that the benefit of the letter/circular no. C-671/CF(B) 2021 dated 17 July, 2021 (which directed that any shortfall be not treated as adverse) be extended to the undersigned.
- 8. I would like to most respectfully and humbly submit that these above reasons might have not received consideration.
- 9. That the Hon'ble Administrative Judge has not been pleased to assign the reasons of reducing the entry awarded by the Respected District Judge.

Thus, I request you to kindly place this representation before the Hon'ble Court for their kind consideration and with the profuse prayer that the entry of the undersigned may be enhanced. I shall be obliged for life.

Thanking you,

Yours Faithfully,

Ajay Kumar Srivastava UP2694 Addl. District & Sessions Judge Barabanki.
