The interest may be paid either in a lump sum at the time of maturity or it may be paid every quarter or every month as per terms of the Deposit.

5. The method of calculation on interest on a Term/Fixed Deposit:

- For Term/Fixed Deposits with quarterly payouts interest is calculated based on annual rates (simple interest). However, in case of monthly payouts, interest is paid at a discounted value. For Term/Fixed Deposits with Quarterly/Monthly on maturity payout, interest is calculated on the principal amount for actual number of completed days.
- For Cumulative Term/Fixed Deposits, interest is compounded quarterly (180 days for FCNR Deposits) on completion of exact quarters (180 days for FCNR Deposits). For the broken period beyond completed quarters (half-years for FCNR), simple interest is calculated on the Cumulated Deposit amount for remaining number of days.
- Rates up to 180 days are on "simple interest" basis. Interest on tenor above 180 days is payable/compounded on quarterly basis.
- Compound Interest/Re-Investment interest is calculated every quarter, and is added to the Principal such that Interest is paid on the Interest earned in the previous quarter as well.
- For Deposits with monthly interest pay-out option, the interest shall be calculated for the quarter and paid monthly at a discounted rate over the Standard FD Rate.
- For the purpose of interest calculation financial year is taken to consist of 365 days, except in a leap year when it is taken to consist of 366 days.

Additionally, Term/Fixed Deposit if prematurely closed, would be subject to 'Premature Closure Penalty' as prescribed by the Bank on the date of Deposit. The interest thereon will be paid for the period for which the Deposit has remained with the bank, after application of penalty. Term/Fixed Deposits of Senior Citizens and premature closure of Term/Fixed Deposit effected due to death of account holder/s are exempted from the said Premature Closure Penalty.
