Subject- Regarding submission of documents in support of medical ground in transfer.

Respected sir,

With reference to the subject above, I humbly want to say that all my medical documents and reports are older than 6 months. As mentioned in your earlier letter, documents should be latest (not more than 6 months old) that is why CMO will not verify my medical documents.

I would like to respectfully draw your attention to the fact that I have to go to Lucknow again and again for my routine check-up so that no allergies or any other kind of infection should increase in my leg. Because of inserted plate in my leg, I am facing some problems everyday. I am waiting for my bones to adjoin so I can get plate removed. Removing of plate will be done from the same hospital from where the operation took placed (Medanta Lucknow), due to which I may have to travel to Lucknow again and again which is quite risky and hard for me.

In view of above facts, I am humbly requesting you to please place my prayer of transfer before the Hon'ble Court for kind consideration.

with Regards!

Yours Faithfully,

(Priti II),
Registrar,
(UP3811)

Land Acquisition Rehabilitation &
Resettlement Authority,
Gorakhpur.
