The Registrar General,  
Hon'ble High Court of Judicature at,  
Allahabad.

Through:-  
The District Judge,  
Moradabad.

Subject:- Representation in respect of stay for one year on medical ground in the Annual Transfer 2021.

Respected Sir,

With due respect, it is submitted that I developed some acute health problem on 06.11.2019 and was immediately taken to the District Hospital, Moradabad. After some pathological tests, on the advise of the District Hospital, Moradabad, I consulted to Dr. Tarun Agarwal, Neuro Physician, who advised for Brain MRI and MR Angiography of neck vessels and other relevant pathological tests. On the basis of Brain MRI and MR Angiography of neck vessels test reports, he advised me for admission in Super Speciality Hospital for further treatment and supervision, as the issue was found to be highly sensitive, connected with brain. I was admitted in Sri Sai Hospital, Moradabad, and remained under the treatment of Dr. Anand Singh, Neuro Physician from 06.11.2019 to 08.11.2019.

On dated 13.11.2019 with a view to ascertain cause of infract in right side of pons area of brain, I was further advised for two medical tests, 1- MRA of brain, 2-Trans-Esophageal Echo test.

Trans-Esophageal Echo test was conducted in Teerthanker Mahaveer Medical College and Research Centre, Moradabad on 16.11.2019. The report confirmed the existence of blood clot 16 x 9 mm LAA in the heart. Dr. Anand Singh further advised for Trans-Esophageal Echo test from Batra Hospital, which was conducted in the Batra Hospital on 22.11.2019. The report confirmed the existence of blood clot 9 x 5 mm. On the advise of Dr. Anand Singh, Neuro Physician, Sri Sai Hospital, Moradabad. I consulted Dr. Sunil Modi, Apollo Hospital, Delhi and Dr. D.Singhania Yashoda Superspeciality Hospital. Trans-Esophageal Echo test was again conducted in Teerthanker Mahaveer Medical College and Research Centre, Moradabad on 06.03.2020, the report confirmed the existence of blood clot 9 x 5 mm LAA in the heart.

With a view to ascertain the cause of palpitation/ heart beat variation, Dr. Anand Singh advised me for Trans-Esophageal Echo and Holter test on 30.09.2020. However due to covid-19 pandemic, Trans-Esophageal Echo could not be done but Holter test was conducted on 10.10.2020. The report of Holter test discloses short SVE run noted (?AF-Atrial fibrillation).

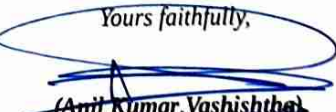

On the basis of the three time Trans-Esophageal Echo and Holter test report, Dr. Anand Singh and other Doctors have diagnosed that both the issues regarding brain and heart, are very sensitive hence continuous treatment for longer period, is required. I am under the treatment of Dr. Anand Singh, Neuro Physician, Sri Sai Hospital, Moradabad. My transfer is due in the annual chain of transfer in 2021.

Hence, looking to the sensitivity and seriousness of my health condition, particularly regarding brain and heart, I have to continue my treatment at Moradabad and also to visit to Hospitals of Delhi, such as Apollo, Batra, AIIMS & other superspecialty hospitals, for proper treatment and cure.

In view of the above health problems, it is most respectfully prayed that I may kindly be permitted to stay/continue for one year at Moradabad, for further treatment. It is further requested that my representation may kindly be placed before the Hon'ble Court for kind and sympathetic consideration.

with utmost regards,

Encl.-Photostat copy of Medical Papers.

Yours faithfully,  
  
(Anil Kumar Vashishtha)  
Special Judge, S.C./S.T. (P.A.) Act,  
Moradabad.

Date-November 23,2020

In The office of District Judge Moradabad.

Letter No: /2020 (Admin) Date- .11.2020

Forwarded to the

The Registrar General,
