**OPINION** : SINGLE LIVE INTRA UTERINE PREGNANCY 07 WEEKS 04DAY.  
ADV. NT/MB SCAN.  
KINDLY CORRELATE.

I, Dr. Pragya Prakash declare that while conducting Ultrasonography on Mrs.....ANUJA.....I have neither detected nor disclosed the sex of her foetus to anybody in any manner.  
Note: All foetal anomalies may not be detected by ultrasonography

Discrepancies due to technical or typing error should be reported within seven days.  
ULTRASOUND HAS ITS LIMITATIONS.IT IS ADVISABLE TO GET AN OPINION FROM A RADIOLOGIST

Dr. Pragya Prakash
