TO WHOMEVER IT MAY CONCERN

This is to certify that, Mr. Chandra Mani Mishra was suffering from chronic liver disease. His liver transplant was done on 12.05.2016 and was discharged in a stable condition. After discharge he advice to take complete rest from 09/05/2016 to 03/08/2016. According to his current reports he needs to take rest for next 6 month. Also he is advised to take extra precaution on his mobility, which should be limited to slow pace with only light accompanying weights and avoiding any jerks. He has not allowing outside food. He has to be on medicines lifelong to prevent liver rejection.

Thanking you.

Dr. Shishir Pareek
