Sub- Representation for pre- mature transfer.

Sir,

Most humbly and respectfully, I beg to say that my mother Smt Ramavati Devi is suffering from Radiculopathy disease and she has also pain in lumbar region , her condition is so cricital and alarming.Thus, she is going through treatment from doctor of BHU Hospital, Varanasi [Medical prescription of hospital and Diagnostic test report are attached . In addition to that it was also detected that she has low level of immune system which put her under high risk of harmonial disorder and dificiency in her body ,for which she needs regular check up and monitoring by specialised doctor of BHU Hospital, Varanasi. [Diagnostic report of March 2022 and recent prescription of hospital are attached]. Thus ,she needs frquent visit to BHU Hospital, Varanasi for getting regular treatment of her diseases and it would be detrimental for her to leave the complete course of treatment of her disease as entire Nervous System and immune system are involved.

Thus, my humble submission is that it is my urgent need of time is to be posted to Varanasi or adjoining station like Ghazipur,from where I could able to continue proper treatment of my mother at BHU Hospital, Varanasi without break.

It is also evident in the wake of Corona pandemic, tackling of problems above mentioned has become more difficult to me for being posted in Gonda.

It is, therefore , requested to Hon'ble Court, considering the cricital health condition of my mother. My representation be considered sympathetically and allowed the same.

With Warm REGARDS,

Date:-31/12/2022
