

From,

Akhileswar Prasad Mishra
Additional District and Sessions Judge
District Mau.

To,

The Registrar General
Hon'ble High Court of Judicature at
Allahabad.

Through,

The District Judge,
Mau.

Subject: **Representation with regard to Pre-Mature transfer from District Mau.**

Respected Sir,

I have honour to submit that Hon'ble High Court has vide Notification No 1861/Admin(Services)/2023 Dated: Allahabad: July 24, 2023, transfered me as Additional District and Sessions Judge, Mau and I have been working as such in District Court Mau since then.

Sir, I wish to submit my representation with regard to pre-mature transfer from District Mau as under:

1. Sir, the transfer aforesaid has been made in the month of July when the sessions in any school is in its mid-term. My younger son Parthasarathi Mishra is studying in 9th Standard and the elder one is preparing for JEE Mains from coaching at Kanpur Nagar. They are in their mid term. By CBSE rule he has to appear in 10th Board exam from Kanpur therefore I am bound to keep him at Kanpur Nagar next year also.
2. Sir, the future of my children is on stake as they are on such an academic state that any negligence or hindrance on my part would lead to spoiling their entire future. No proper coaching or schooling is possible at District Mau, which may lead great academic lag in future.
3. Sir, my children are in such age and on such academic state that my guidance and supervision is very much important for their proper upbringing and academic and itellectual growth. This is also worth mentioning that they are in tender age therefore proper guidance and supervision alongwith care is must, which is not possible from my peresent remote posting.
4. Sir, my parants were also accompanying me at previous station and are also undergoing treatment for old age diseases like hypertention, blood pressure dibaties and anxiety at Kanpur Nagar. My father is also suffering from

✓

neurological ailment. They are also presently residing at Kanpur for their medical attendance. They too need care and attention, Sometimes urgent and immediate medical attendance necessitates them and at this point of time urgent care can not to be compromised.

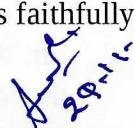

5. This is worth mentioning that at District Mau proper insentive medical facilities are not available and therefore I am bound keep my parents at a place where proper and intensive medical facilities are available. From this place of posting from where no proper transportation facilities are available and which is to distant from Kanpur, I am failing in my duty to take care of my parents. This distance between Kanpur and Mau is more than 400 Kms and it is not possible to attend any medical exigency and urgent need timely.
6. This is also to request most humbly that there is no other person to attend my parents and I am the alone person to attend them. As they are residing at Kanpur Nagar, I would be able to attend them occasionally in order to facilitate their treatment and for follow-up if I am given posting at any close place from Kanpur Nagar.
7. Sir, if I am transferred to any neighbouring district of Kanpur Nagar, I would be able to guide my children and take care of my parents and family properly.

I, therefore humbly request you to kindly place my representation before the Hon'ble Court to consider my representation sympathetically and consider my premature transfer to any near and close district of Kanpur as the Hon'ble Court may deem fit and proper.

I shall be grateful to the Hon'ble Court for kindness in this regard.

With profound regards.

Yours faithfully

29-11-23

(AKHILESWAR PRASAD MISHRA)

Dated: 29.11.2023

PLAIN CT SCAN BRAIN

- Ventricles, cisterns, sylvian fissures and sulci are prominent suggestive of global cortical atrophy with periventricular & deep white matter hypodensities favouring chronic ischemic changes.
- A small hypodense area is seen in posterior limb of left internal capsule - Possibly subacute infarct.
- No evidence of any sizeable acute haematoma seen.
- No mass lesion or mid line shift.
- No localized oedema or calcification.
- Brain stem and cerebellum appear normal.
- Skull vault appears normal.
- **Clinical correlation and follow up is advised.**

M.R.I. Brain

Technique-M.R.I. Brain was done on dedicated quadrature head coil and following sequences were taken-T2axial, and Coronal, T1 Flair , T1 Sag and DWI image.

OBSERVATION

- ◆ There is evidence of small T1 hypointense & T2 hyperintense area present on Lt side in paraventricular parietal region .On diffusion weighted imaging Diffusion restricted no Bright signal area seen..
- ◆ Rest of The MR study shows normal differentiation of gray and white matter of the cerebral cortex.
- ◆ The basal nuclei, thalami, cerebellum, brain stem and corpus callosum shows normal MR morphology and signal intensity pattern.
- ◆ The ventricular system is dilated.
- ◆ Sulci over the cortical surfaces and cisternal spaces are widened.
- ◆ No mass effect or midline shift noted.No evidence of any basal exudates are noted.
- ◆ Sellar, parasellar and suprasellar areas are free.
- ◆ Pituitary gland shows normal MR morphology.
- ◆ Orbit, retro bulbar spaces shows normal MR morphology and signal intensity pattern.

IMPRESSION:- MR FINDINGS ARE S/O –

- ◆ Small T1 hypointense & T2 hyperintense area present on Lt. side in paraventricular Parietal region ..S/o- small lacunar Infarct .
- ◆ Senile cerebral atrophy with periventricular ischemic changes..

Adv :- Further investigation and correlate clinically.
