Refer by :

Name Baby Drishiti Saraswati

Age 4 yr 8 mths

Add. ....

To whom it may Concern

Above patient Baby Drishiti has been diagnosed to Autism Spectrum Disorder & speech delay. She is taking Sensory Integration therapy and speech therapy at our Centre from few months and is showing gradual improvements. She needs to continue her therapy for 2 years. So pls do the needful for the betterment of her life.

Thank You

Yours sincerely  
Dr. SHIVOM SINGH
