

Autism Speaks We Understand

Whomsoever it may concern

This is to certify that Faraz Aktar , son of Mr. Rayees Aktar & Mrs. Farha Jameel is diagnosed with Autism spectrum Disorder. His therapies have been started and will continue till further improvement of child , for which he is under long term intensive training program , including occupational therapy and Behaviour Therapy specially diagnosed to help these children to achieve their maximum potential , which essentially needs constant intervention and involvement of specialized medical practitioner .

It is recommended that the child must go through the treatment , which involves regular therapies and medical intervention and care for the appropriate and desired growth and development of the child. Faraz Aktar is under going occupational therapy , speech therapy and Behaviour Therapy at present and it will continue till his recovery. child also needs constant support and complete involvement of parents for better result.

Hence, it is recommended to continue to provide these therapies to child with the involvement of parents as child is not yet capable of doing minimum essential requirement by his own. Parents role will play very important factor in the improvement of the child.
