

BABYSTEP CHILD DEVELOPMENT CENTER

An Exclusive Multispecialty Center For Autism, ADHD, Cerebral Palsy, Learning Disorder
And Other Development Delay

TO WHOM IT MAY CONCERN

This is certified that Master Faraz Akhtar, age 5.6 Years s/o Mrs Farha Jameel and Mr Rayees Akhtar has been diagnosed with Autism Spectrum Disorder with sensory and communication difficulties, owing to this he is taking continuous integrated therapy program (occupational Therapy) for sensory processing problems and communication at Babystep child development centre from last 2 years. He also need such integrated program for a daily basis for proper development and skills ,which require presence and training of parents for continuous follow home care program for better outcome.

Many Thanks

Date-

Miss puja Madheshiya
