

**The Registrar General,**  
High Court of Judicature at Allahabad  
High Court, Allahabad.

**Through:** The District Judge, Faizabad,

**Subject: Request for accommodating on any post at Lucknow on account of ailment of parents and change of station in mid-session.**

**Respected Sir,**

With due respect and humility at my command, I wish to bring in your honour kind notice the following facts:-

1. That the applicant has joined the judicial Service as Civil Judge (Junior Division) in the year 2009 and was given posting as Addl. Civil Judge (JD), Gonda where he remained till July,2011 and thereafter was posted at different places in the State of Uttar Pradesh.
2. That vide notification dated 19.4.2018, the applicant was given posting on the post of Addl. Chief Metropolitan Magistrate, Kanpur Nagar where he took charge on 26.4.2018.
3. That within a very short span, the applicant was sent on deputation as Chief Law Officer, U.P.Pollution Control Board, Lucknow where he took charge on 15.5.2018.
4. That here it is important to mention that the applicant opted for Lucknow posting in preference to Kanpur Nagar on account of serious ailment of his parents. The applicant's father, namely, Mr Digvijay Singh was diagnosed retinal detachment and loss vision in the eye, for which he was put to surgery at Prakash Netra Kendra, Gomti Nagar, Lucknow, where he has to go for regular check-up. The mother of the applicant, who was the patient of Sarcodysis

*A*  
16-9-19

(lungs disease) is also under regular follow up. Copies of the Medical prescription of the parents are enclosed and marked as **Annexure-1** for kind perusal.

5. That the applicant further humbly submits that his wife Smt. Shiva Singh is the only child of her parents, who are at the fag end of their life. Therefore, her parents are also residing at the applicant's home and are being looked after by me and my wife. It may be added that mother-in law of the applicant, namely, Smt. Suniti Singh has a renal problem, for which she is under treatment at RML Insitute, Gomti Nagar, Lucknow, while the father-in-law, Shri S.P.Singh, who is a septugenarian, has developed Scoliosis in lumbar spine and has a restricted movement on account of knee replacement, which was done last year. It may be added that replacement of other knee is to be done soon. Copies of the medical prescriptions are collectitvely enclosed and marked as **Annexure-2**.
6. That it is respectfully submitted that after assuming charge in May, 2018 he got her daugther, namely, Baby Vaghisa Singh admitted in one of the prestigious college of Lucknow i.e. La Martiniere College, where she is studying in Class III.
7. That recently vide notification dated 20.8.2019, the applicant has been promoted and reverted to regular line and has been given posting as Additional District & Sessions Judge, (Fast Track Court) Faizabad.
8. That the applicant submits with respect that on account of change in station in mid-session, it would be highly difficult to get the daughter admitted in any reputed college at Faizabad resulting in adverse effect on the studies of the applicant's daughter.
9. That in view of the aforesaid difficult situation on account of serious illness of parents of the applicant and his wife, who is the sole child of her parent together with the fact that the studies of the child would be adversely affected, the applicant humbly prays for his accommodation/posting at any place in District Lucknow otherwise

  
16-9-19

medical treatment of old ailing parents would be adversely affected. As mentioned above, the applicant has to look after not only his ailing parents, but of his wife too.

Wherefore, it is most respectfully prayed to kindly move the Hon'ble Court for sympathetic consideration of my representation and accommodating the applicant at any post in district Lucknow looking to the serious ailment of parents and adverse effect on the studies of the school going daughter.

For this act of kindness, the applicant shall be highly grateful.

Enclosure : as above

Yours faithfully

*Ajayvikram*  
*16.9.19*

### CASE SUMMARY

A 64 yrs old male patient, Mr. Digvijay Singh, presented to us on 03/09/12 with decrease of vision in the left eye since 3 weeks. On examination he had Cataract with dense vitreous haemorrhage in the left eye. B-Scan of the left eye showed few dot like medium reflective echos along with a high reflective membrane echo in the temporal quadrant. He was advised Phaco + Vit + EL in LE. On table retinal detachment with features of old RD was noted which was settled with C3F8 gas on 19/09/12.

His vision recovered to 6/36 in the left eye. He again presented to us on 20/11/12 with decrease of vision. On examination he had developed thick PCO for which Yag Capsulotomy LE was done. He again had drop in his left eye vision on 06/12/12, fundus examination showed recurrence of retinal detachment. He was posted for Revit + SO Injection LE which was done on 07/12/12. On his last follow up on 20/12/12 his fundus examination showed traction in infero temporal quadrant with sub retinal fluid sparing the fovea, his vision was finger counting in LE. Then patient underwent Phaco + IOL in RE for cataract on 09/02/13. Patient developed sub-retinal band in LE for which he underwent sub-retinal band removal + SOR + PFCL + EL + SOI + PI surgery on 16/02/13. On 05/04/13 patient was posted again for AC Wash with PFCL removal in LE. On last follow-up 15/09/13 his vision with glasses was HM+ in LE & 6/6P in RE.

**MRI: LUMBO-SACRAL SPINE**

IMAGING SEQUENCES (NCMR)  
 AXIAL: T1 & TSE T2 Wis.; SAGITTAL: T1 & TSE T2 Wis. CORONAL: TIRM

Scoliosis is seen in lumbar spine with concavity towards the right. There is evidence of degenerative changes affecting lumbar spine. All the intervertebral discs are desiccated. Vertebrae are also showing degenerative changes in form of anterior osteophytosis and signal changes adjacent to end plates. Schmorl's nodes are seen at multiple levels.

Right posterior paracentral disc herniation (protrusion) is observed at L2-3 level producing moderate compromise of right lateral recess with extradural compression over thecal sac.

Disc bulges are observed at L3-4, L4-5 & L5-S1 levels producing mild compromise of bilateral lateral recesses with mild extradural compression over thecal sac.

Lower dorsal spinal cord and conus medullaris are showing normal morphology, outline and signal intensity. Cord CSF interface is normally visualised.

Facet joint hypertrophy is seen at multiple levels.

Pre and para vertebral soft tissues are normal.

Screening of rest of the spine was performed, which reveals prominent posterior osteophytes - disc bulges at C3-4, C4-5, C5-6 & C6-7 levels producing compromise of bilateral lateral recesses with extradural compression over thecal sac - spinal cord. No obvious myelopathic changes are seen.

**IMPRESSION**

- Degenerative changes affecting lumbar spine with disc herniation at L2-3 level and disc bulges at multiple levels.

Please correlate clinically.

# Medical Papers of Father-in-law of Knee Replacement.

Page 1 of 2

**Health City**  
Trauma Centre & Super Speciality Hospital

**Department of Orthopedics & Joint Replacement Surgery**

**Discharge Summary**

---

**PATIENT NAME:** MR. SHAILENDRA PRATAP SINGH      **AGE/SEX:** 66Y/M

**FATHER'S NAME:** MR. SURENDRA PRATAP SINGH      **CONTACT NO:** 99355 08884 & 99354 78884

**ADDRESS:** RAJBHAWAN, JALANABAD, FAIZABAD, U.P.

**UID NO:** 100031189      **IP NO:** 2018-19/S/2472

**Surgeon Incharge:** Dr. Sandeep Garg (MS)

**Category:** Corporate - Paramount Health Insurance TPA Pvt. Ltd.

**DOA:** 16 Oct. 2018      **DOO:** 17 Oct. 2018      **DOD:** 21 Oct. 2018

---

**DIAGNOSIS:** BILATERAL OSTEOARTHRITIS KNEES

**Co MORBIDITIES:** Diabetes Mellitus, Hypertension, COPD & BPH

**HISTORY:** Patient admitted with chief complaints of pain in both knee, swelling, deformity with difficulty in walking, climbing upstairs, bending knee & sitting cross legged.

**OPERATION:** TOTAL KNEE REPLACEMENT LEFT SIDE USING ATTUNE FEMORAL COMPONENT ATTUNE FIXED BEARING TRAY (DEPUY SYNTHES) DONE UNDER EPIDURAL ANAESTHESIA ON 17 OCTOBER 2018. ANAESTHETIST: DR. PRAMESH AGARWAL, MD. DR. SUBODH KUMAR, MD. (IMPLANT STICKER ON OVERLEAF).

**OPERATIVE FINDING:**

- Arthritic changes in left knee.
- Marginal osteophytes with abutment of left knee joint surface.
- Posterior osteophytes extracted.

**INVESTIGATIONS:** All reports attached and duly received by the patient.

**POST OP COURSE:** Post op period uneventful.
